

# Introducing *VisiCom Pro*

The large-scale communication system that's simple to use.

**Really!**

Number indicates which staff member is being paged

Letter indicates in which room the staff member is needed

LED indicates reply message

- Installs by plugging into ordinary wall outlets
- Wireless or direct-wired communications
- Designed for infection control
- Pleasing adjustable chime
- Displays up to 16 concurrent messages
- Uses 50% less counterspace than competing products

## PLEASE COME

**Page a staff member to your present location**

Capacity to page up to 99 people. Uses letters A-Z to identify locations.

## PHONE CALL

**Announce phone calls**

From any VisiCom unit announce phone calls.

## PATIENT IS HERE

**Announce appointment arrivals**

From any VisiCom unit announce arrivals.

## NEED AID

**One-touch "Help" button**

One-button instant-aid message immediately calls available staff members to your location.

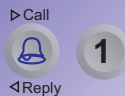

## MEET ME IN LAB

**Page a staff member to a different location**

From any VisiCom unit page a staff member to report to a designated location.

## TAKE A MESSAGE

**Repond to messages with a customized response menu**

Choose a reply from a message list you define: Take a message... Can't come now...Be right there...etc.

## GO WHERE NEXT?

**Patient/Appointment sequencing**

Messages are displayed to show location of next appointment at a glance.

## MY CALLS ONLY

**Chime selection reduces interruption**

Set any VisiCom unit so only your messages will chime on that unit.
